MODULAR SUSPENDED CEILING GRID SYSTEM

PREMIUM T-Grid

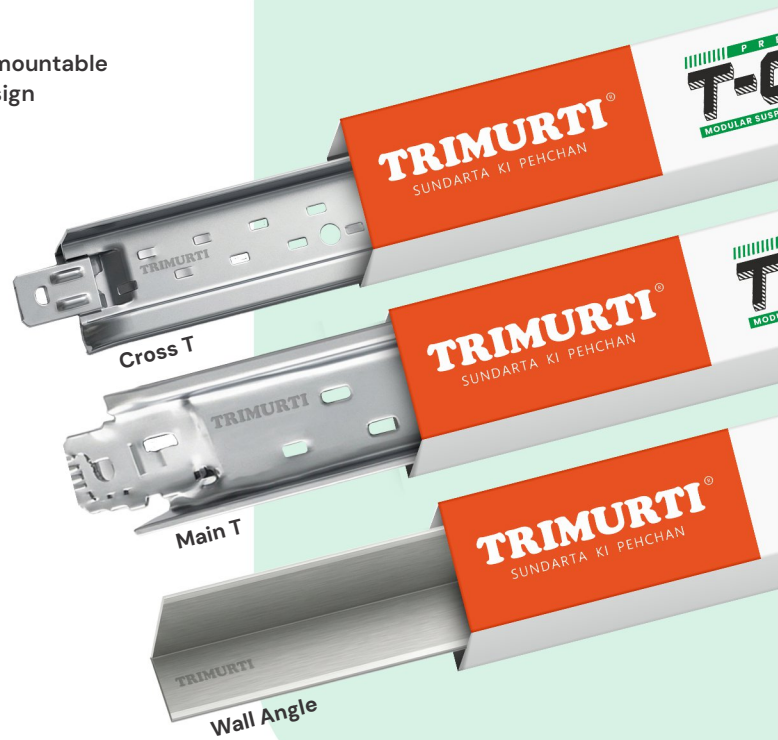

Trimurti T-Grid System is a high-performance false ceiling suspension framework designed to provide strong structural support, precise alignment, and a clean, professional finish. The system consists of three key components – Main T, Cross T, and Wall Angle – working together to create a stable and uniform grid structure. Manufactured from high-quality GI sheet, it ensures durability, corrosion resistance, and reliable long-term performance across various interior spaces.

Key Benefits & Features

-  Strong Structural Support
